Mechanical Engineering (Master of Science Degree) General Information about Program

degree, lead R&D projects in industry or start their own technology companies to turn innovative ideas into products, make contributions to the state-of-the-art, and disseminate scholarly work in scientific conferences and journals. Qualification Master of Science Awarded Evel of Qf-EHEA: 2 Qualification Registration EQF-LLL: 7 Provisions for Regulations which are specified in "Ozyeğin University Rules and Regulatons for Graduate Programs " and Özyeğin University Directives on Graduate Program Admissions. Applicants must be either graduates of or graduating from an undergraduate program in case of Thesis and Non-Thesis program applications. Among admitted applicants, those who are expected to graduate must successfully complete their current programs prior to the enrollment date in order to be able to enroll in the university. For diplomas awarded by higher education institutions abroad their education and degree must be deemed recognized by YOK to those awarded by higher education institutions in Turkey's. Qualification To be able graduate from the Program, students have to complete 90 ECTS (Non-Thesis program) 120 ECTS (Thesis program) successfully. Turkish citizens have to provide graduate programs entrance exam score report (GRE or ALES) foreign nationals are exempt from the requirement to submit ALES. Besides, applicants must submit English Proficiency Exam scores (TOEFL-IBT, KPDS or ÜDS reports provided that they are still valid. Specific Depending on the degrees awarded, courses taken as part of a degree (completed or credit and grade transfer: The executive boards of relevant program will decide on the courses to be transferred.	General Information	
Awarded Level of Qualification QF-EHEA: 2 Qualification Provisions for Registration The conditions to apply for the master of science are defined in the requirements and regulations which are specified in " <u>Özveğin University Rules and Regulations for Graduate_Programs</u> " and <u>Özveğin University Rules and Regulations for</u> admitssions. Applicants must be either graduates of or graduating from an undergraduate program in case of Thesis and Non-Thesis program applications. Among admitted applicants, those who are expected to graduate must successfully complete their current programs prior to the enrollment date in order to be able to enroll in the university. For diplomas awarded by higher education institutions abroad their education and degree must be deemed recognized by YÖK to those awarded by higher education and degree must be deemed recognized by YÖK to those awarded by higher education and degree must be deemed recognized by TOK to those awarded by higher education and degree must be deemed recognized by TOK to those awarded by higher education institutions in Turkey's. Qualification To be able graduate from the Program, students have to complete 90 ECTS (Non-Thesis program) 120 ECTS (Thesis program) successfully. Turkish citizens have to provide graduate programs cores (TOEFL-IBT, KPDS or ÜDS reports provided that they are still valid. Specific Depending on the degrees awarded, courses taken as part of a degree (completed or not completed) may lead to recognition of these as prior learning by the program. The students who have taken courses in another institution in Turkey or abroad can ask for credit and grade transfer. The executive boards of relevant program will decide on the courses to be transferred. Evaluation Evalua		industrial engineers who will either continue conducting research towards a Ph.D. degree, lead R&D projects in industry or start their own technology companies to turn innovative ideas into products, make contributions to the state-of-the-art, and disseminate scholarly work in scientific conferences and journals.
